Phone: +91 7973902705

Location: Gurdapur, Punjab, India

Profile Summary

Full Stack Developer focused on creating responsive, production-ready web applications with modern frontend frameworks and reliable backend services. Experienced in translating product needs into scalable implementations with clean UI and robust API architecture.

Experience

Web Development Intern - Unified Mentor

Aug 2025 - Oct 2025

Worked on multiple web development projects to apply and expand practical engineering skills across frontend and backend systems, including implementation, debugging, integration, and delivery of user-focused features.

Core Capabilities

- Frontend Development: React, Next.js, responsive UI design, modern CSS systems.
- Backend Development: Node.js, Express, REST API design, server-side business logic.
- Full-Stack Delivery: End-to-end applications with database integration and deployment-ready structure.

Selected Projects

1) Vibe Code Editor

- Real-time code editor with multi-language support.
- Built with Next.js and Monaco Editor.
- Supports dynamic code execution workflows and responsive rendering.

2) Habit Tracker

- Habit tracking application with graphical progress visibility.
- Supports adding, editing, and deleting habits for day-to-day tracking.

3) Background Remover

- Image utility to remove photo backgrounds quickly.
- Designed for simple transparent-background generation workflows.

4) Weather App

- Real-time weather search by city with current condition display.
- Includes a 5-day forecast with temperature trends and weather icons.

Technical Skills

HTML, CSS3, Bootstrap, Tailwind CSS, TypeScript, React.js, Next.js, Git, GitHub, Node.js, Express, MongoDB, Prisma, MySQL, PostgreSQL, Docker
